CUT-OFF IS NOW BEING OPERATED.

S. P. Runs Trains Today Over 50 Miles of New Track.

ANOTHER O, S. L. CONNECTION

Contract Let to Join With Main Line North of Ogden-San Pedro Movements.

The Southern Pacific today commenced to operate 50 miles of its new track for the first time. This stretch of track represents part of the reconstruction of the Central Pacific for which President Harriman has authorized the expenditure of several millions. The new cut-off which has been put into commission consists of the stretch which was built between Wadsworth and Brown station in Nevada, and was built to avoid a bad grade that was a feature of the main line.

Work on the Central Pacific is being rushed all along the line. Word comes to the effect that nearly all the piles on the Lucin cut-off are now driven across to Promontory point and steel will be down to that point within 30 days. In this connection the Oregon Short

Line has let a contract for the construction of a track that will connect the main line just north of the river at Ogden with the Southern Pacific main line. This improvement is being instituted on account of the vast amount of material that is being shipped and brought in over the Short Line for the lake cut-off. The building of this track will do away with the great amount of switching that is now in vogue. When this is completed there will be two connecting tracks with the Southern Pacific in addition to the one already being constructed at Brigham City to Corinne.

ATLANTIC AND PACIFIC Another Transcontinental Line to Pass Through Salt Lake,

Dallas, Tex., Oct. 18 .- A special to the News from El Paso says:

A high official of the Texas and Pacific railway announces that the recent purchase by that company of the Mineral Wells line means a transconti-nental connection for the Texas and Pacific from New Orleans to San Fran-

The Mineral Wells will be extended to Trinidad, Colo., to connect there with the Atlantic and Pacific. Trains will be forwarded over the Atlantic and Pacific to Salt Lake City, where connection will be made with the Ore-gon Short Line to the Pacific coast.

SAN PEDRO DEAL,

In Consequence the Construction of Branch to Iron Fields Declared Off.

News was released this morning which in many particulars confirms the story that Senator Clark and E. H. Harriman have reached an understanding respecting the building of a line through to Los Angeles whereby the an Pedro will connect with the Oregon Short Line to the patching up of past differences.

The news to the effect that Senator Clark has purchased the famous Las Vegas ranch, the oasis in the desert in southern Nevada, is in itself significant when it is recalled that during the time when the Short Line and the San Pedro were buying up right-of-ways and Senator Clark proposed to purchase the famous ranch the Short Line dispatched a horseman who rode post haste across the desert and secured an option of \$5,000, according to report, on the property. The Short Line apparently has forfeited its option -an incident in itself which would point to the fact that the Harriman road had abandoned the field to Sena. tor Clark.

It is further learned that the Ore-gon Short Line has broken off all ne-gotiations which up to two weeks ago were progressing satisfactorily in con-nection with the building of a branch line from the vicinity of Lund to tap the Iron county deposits of mineral. It was proposed to build this 26 mile branch, so claim the operators, so that they could ship in 500 tons of iron ora they could ship in 500 tons of iron ore a day to the smelters in this val-The summary dismissal of the prop-

osition to build the line has caused much surprise to the Kimberly-Buhi people and to Col. Milner and his assoclatas and as the result operations have been suspended on the properties pending further developments.

SIGNIFICANT MEETING. Judge Cornish Still Tarries in Salt Lake and Is Very Busy.

Judge Cornish, Harriman's right hand man and vice president of several of the roads connected with big systems, is still in Salt Lake putting in most of his time in the private office of Vice President W. H. Bancroft, in company with Judge Keily, connsel for the Union Pacific, and Parley L. Wil-liams, attorney for the Oregon Short Line. From the length of the stay in Salt Lake and the close application to business, to use the trite expression of a local railroad official, it is thought that there is decidedly "a hen on."

Senator Clark Purchases Oasis on

Line of Los Angeles Road. The Butte Miner says: Senator W. A. Clark, through his agents at Salt Lake, yesterday consummated a deal which, besides giving him possession of the one great "beauty spot" in the Nevada desert, becomes a valuable adjunct to the construction and operation of the San Pedro, Los Angeles & Salt Lake railroad, which will shortly connect the City of the Angels with the

City of the Saints, For a consideration of \$55,000 the Sen. ator secured title from Mrs. Stewart, widow of the former owner, to the fa-mous Las Vegas ranch in Lincoln coun-ty, Nevada. It is an oasis in the desert, about midway between Los An-geles and Salt Lake. The ranch con-sists of 1,800 acres of arable land sup-plied with 500 inches of water for irrigation. The climatic conditions are such and the soil of such peculiar rich ness that tropical fruits, dates, figs, etc., and the citrus fruits can be produced in a way to rival the most fa-vored sections of southern California.

In making the purchase the Senator's principal object was to provide a midway station between Salt Lake Los Angeles, where will be located 51 West Second South.

Idaho's Campaign the Most Aggressive in Its History.

TOM PITT'S OBSERVATIONS.

Says Both Parties Claim the State and Are Doing Everything to Make Their Claim Good.

Tom Pitt, secretary of the Republican state committee, has just returned from a business trip into Idaho. He says the campaign is on there in dead earnest, and that both Republicans and Democrats are doing everything in their power to win votes, their efforts extending from one end of the state to the other. While the result is very doubtful Mr. Pitt says that sanguine Republicans are betting freely that Hant, the Democratic nominee for gov-ernor, will be defeated. However, there are those favorable to his election who are those favorable to his election who contend that he will win and these people are exerting every energy to that end. Ben Rich, says Mr. Pitt, is working hard for his party and everywhere he goes he is greeted by large audiences. On Thursday night Mr. Rich spoke at Idaho Falls in company with Judge Borah, and last night he spoke at Oxford while this evening he will at Oxford while this evening he will address a meeting at Blackfoot. He has also been through the Teton basin and has covered as much ground, and as effectively, as any speaker in the state. Mr. Pitt says that Hutchinson is confident of success, the Democratic nominee for Congress asserting that he will win in November with a ma-lority which will make his opponent stare. John Fife, says Tom, is making bots up there that Utah will go Re-publican by a majority of 3,000.

DEMOCRATIC CANVASS.

Chairman Warrum Says It Will Be Completed This Evening.

Chairman Warrum of the Democtation county committee stated today that in all probability they would complete their canvass of the county this even-ing. It was expected that this work would have been finished long ere this, but inasmuch as they were desirous of but inasmuch as they were desirous of making it accurate, the additional care taken made it a long, tedious job. However, it is expected that its completion will place the committee in a position to work intelligently, to the end that no means may be spared in making every vote count at the proper time. Mr. Warrum ridicules the idea that there are 3,000 new voters in this county, saying that this would mean an increase in population of at least an increase in population of at least 12,000, a figure which he looks upon as absurd. He says there will be a large doubtful vote as many people have not affiliated with any party and will not pledge themselves to vote either way, preferring to act upon their convictions hen the time comes to exercise their

Ellingwood, secretary and treasurer. The company owns the Amy group of 29 claims located in the Merrimac mining district, Elko county, Nevada.

Real estate men say there is little or no inquiry from outside, and what there is comes from the city and vicinity. During September, there was a demand for houses that was in instances fieres; but at this time, people have got set-tled for the winter, and the demand for dwellings has subsided. During the early fall many people from the mining camps and ranches hasten into town to secure homes for the season and to put their children in the city schools.

SERIOUS ACCIDENT.

Herbert Adams and Gus Smith met with an accident last Friday which al-most cost them their lives. They were standing on a scaffold shingling a granary for Mr. Adams when the scafgranary for Mr. Adams when the scaffold suddenly gave way throwing the gentlemen violently to the ground, a distance of 18 feet, Mr. Adams, who is a man of nearly 60 years of age, was severely bruised, while Mr. Smith has his right arm broken at the elbow, and was also bruised considerably. A lamentable feature of the affair with Mr. Smith is in the fact that his left away. FRUIT TO SPOIL.

Fruit is so abundant with our people this fall that hundreds of bushels will undoubtedly spoil for want of care in many of the large orchards in this vi-cinity. Mr. John Adams has apples. pears, plums, prunes and grapes by the load, that he offers for sale at a nomi-nal price, and, it is stated, those who have no money may have fruit for the
